

This was a really neat project that involved everything you would want from a General Contractor.

As expressed in the [testimonials](#):

- High quality project that was beautifully executed
- 18 month schedule completed in 16 months
- \$ 483,608 under run including over \$ 300,000 in upgrades
- Staff involved with the project to be highly professional and consistently diligent relative to their commitment and obligations to the client and project
- Maintain very strong and cooperative relationships with the City's Planning and Building Departments
- The construction process was painless and the quality of the construction is first class
- [Click here to read full article in US Builders Review\(PDF\)](#)
